

**1-Day Workshop
2014 Insider Threat:
A Change in Paradigm from Paranoia to Protection
5th June 2014
Wobourn House, 20 Tavistock Square, London WC1H 9HQ**

Dear All,

Insiders pose a substantial threat by virtue of their knowledge of, and access to, their employers' systems and/or databases and can bypass existing physical and electronic security measures through legitimate measures.

Come and share your ideas in panel discussions and open forums on how your organizations deal with insider threats. Participate in a challenge problem workshop designed for insider threat problems of tomorrow. Meet and network with speakers and participants within academia, government, and industry who have built or who are building insider threat programs.

Benefits potentially include:

- Learning how insider incidents evolve over time.
- Understand the need to include technical and behavioral (non-technical) data sources in the insider risk assessment process.
- Find out how to build an insider threat program in your organization.

Confirmed Speakers thus far:

James (Scott) Gee, Special Agent, Assistant Attaché, US Secret Service, UK.

Paul Nielsen, CEO and Director, Software Engineering Institute, USA

William R Claycomb, Lead Research Scientist, Insider Threat Programme, Carnegie Mellon University, USA

Summer Fowler, Deputy Technical Director of the CERT Cyber Security Solutions Directorate, USA

Randy Trzeciak, Technical Manager of CERT's Enterprise Threat and Vulnerability Management Team, USA

David Spinks, Operational Risk Management, HP Enterprise Services, UK.

Dan Solomon, Director, Cyber Risk & Security Services, Optimal Risk Management Ltd.

Prof. John Walker, Director of CSIRT & Cyber Forensics, Integral Xssurance Ltd., UK

Mike Loginov, CISO - Chief Cyber Strategist, EMEA - Senior Client Principal, HP Enterprise Security Group, Ascot Barclay Group, ISSA, UK

Ian Seward, General Manager, The Institute of Cyber Security Innovation, Royal Holloway.
