

How to thrive in these challenging times?

Achieving Business Goals through CMMI High Maturity Practices :

What are the benefits of CMMI high maturity practices?

Currently more than 3000 organizations worldwide achieved some level of CMMI, but only 197 reached maturity level 5. This presentation will explain how high maturity practices were implemented in one of those organizations, Accenture Spain Delivery Centre, and illustrates how business goals are defined, how Lean Six Sigma is used to achieve those goals, and how projects are quantitatively managed in order to optimize their results.

What is the next wave of CMMI?

With V1.3 being released recently, we will explore the differences in the upgrade, lessons learnt from the early adopters and implementers of CMMI and SCAMPI V1.3. Insights and solutions for removing the pain from business process improvement programs.

How Microsoft Desktop technologies are transforming the way we work?

- What are The Risks and Benefits using Excel as a Database tool?
- Sharepoint 2010: The solution for Workflow
- With so much power with these tools (in the right hands of course) does this eliminate the need for Corporations to spend often hundreds of thousands of pounds on developing enterprise solutions which are by comparison rigid and quickly out-date the processes they support?

Ricardo Panero

Ricardo Panero is Industrialization Lead in Accenture Spain Delivery Centre (DC). He leads the innovation program in Spain DC, which achieved the first CMMI level 5 in Spain in 2005. He is a specialist on High Maturity, Lean and Six Sigma, and authored two patents, a Process Model Lean Notation and a Lean Management Information System.

Jaime Mata Iriondo

Jaime Mata is SEPG lead in Accenture Spain Delivery Centre (DC). Since 2000 he has been CMMI practitioner managing complex SAP programs & projects remotely, and currently leads the SAP Platform with over 500 people and the Continuous Improvement Group in Spain DC.

Peter Leeson

Peter Leeson is an international certified lead appraiser and CMMI instructor as well as an SEI Visiting Scientist. He has been a regular speaker at the SEPG conferences for many years, and is usually very highly rated in the feedback.

Rishi Sapra

Rishi Sapra is Business Analyst in the Barclays Finance Change Team, focusing on Business modelling and Process improvement activities. I am a Chartered Accountant by background though now my main emphasis is on automating and increasing the efficiency of finance processes using Microsoft Desktop technologies and aiding financial decision-making through the use of spreadsheet models.
